## **DETAILED ACTION**

### ***Preliminary Amendment***

1. Examiner acknowledges Preliminary Amendment for the claims filed 12/17/2004. Applicants have cancelled claims 1 – 55 and added new claims 56 – 74. The submitted amendments have been entered and made of record. Presently, pending claims are 56 – 74.

### ***Specification***

2. The abstract of the disclosure is objected to because the abstract paragraph exceeds 150 words (check for legalese, 1 paragraph, <150 words). Correction is required. See MPEP § 608.01(b).

### ***Election / Restrictions***

This application contains claims directed to the following patentably distinct claimed inventions. Restriction to one of the following invention is required under 35 U.S.C 121:

- I. Claims 56 – 72 drawn to electronic document protection during the transmission with specific user identifications and communication protocols including timeout mechanisms between the transmitter and receiver, classified in class 713, subclass 170.

- II. Claims 73 – 74 drawn to a more specific security device, a cassette for a personal crypto-protective complex for protection and storage of security information, classified in class 380, subclass 287.

Inventions I – II are related as subcombination disclosed as usable together in a single combination of a electronic document protection system. The subcombinations are distinct from each other if they are shown to be separately usable.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.
